The 'War Phase' Of This Fourth Turning Has Arrived

Jim Quinn

> *"The risk of catastrophe will be very high. The nation could erupt into insurrection or civil violence, crack up geographically, or succumb to authoritarian rule. If there is a war, it is likely to be one of maximum risk and effort – in other words, a total war. Every Fourth Turning has registered an upward ratchet in the technology of destruction, and in mankind's willingness to use it."*

> *"History offers no guarantees. Obviously, things could go horribly wrong – the possibilities ranging from a nuclear exchange to incurable plagues, from terrorist anarchy to high-tech dictatorship. We should not assume that Providence will always exempt our nation from the irreversible tragedies that have overtaken so many others: not just temporary hardship, but debasement and total ruin. Losing in the next Fourth Turning could mean something incomparably worse. It could mean a lasting defeat from which our national innocence – perhaps even our nation – might never recover."* **~ Strauss & Howe – The Fourth Turning**

As I observe the seemingly endless narratives of ongoing and future wars, traitorous machinations of **Deep State** snakes, curious "assassination" plots, BBB legislation designed to set the stage for financial Armageddon, and the coverup of a global pedophile network implicating the ruling elite, I can't help but be reminded of **Shakespeare's** assertion the world is a stage and we are all merely bit players in this tragedy disguised as a comedy. Based on what I've witnessed over the last several months, I would change the line to "the world is staged". This really came into focus during the Israel – Iran dustup several weeks ago. The entire episode had a theatrical vibe to it, with Israel assassinating key military leaders and the top nuclear scientists of Iran, while both sides launched missiles at each other for a week or so.

What passes for war these days is now missiles and drones lighting up the sky for TV cameras while inflicting relatively moderate damage and few casualties. Only Putin seems to understand wars are won on the ground, with armies destroying the enemy in brutal bloody combat. Israel appears to have been tasked with lighting the fuse on this **Fourth Turning** powder-keg of religious hate, neo-con retribution, globalist new

world order schemes, **Deep State** machinations, and an empire of debt, delusion, and degradation in its death throes.

Did Trump know Netanyahu was going to launch a surprise attack on Iran, knowing he lacked the firepower to eliminate their underground nuclear facilities? Or was Trump fully onboard with the plan to distract Iran with fake negotiations, so they would let their guard down? In either case, Netanyahu is calling the shots and Trump has been doing his bidding. Trump, the self-proclaimed peace president, has misled those of us who believed he wanted to end the Ukraine and Middle East conflicts.

When Israel began getting pummeled by Iranian hypersonic missiles, proving their Iron Dome wasn't living up to its hype, Netanyahu knew he could appeal to Trump's vanity to save the day by using our bunker busters on the underground nuclear facilities. Israel knew they couldn't take out those facilities but started the war anyway. Their plan all along was to have Trump do the dirty work. The question is whether Trump was in on it all along or forced into it by Bibi's puppet master machinations.

Everything seemed to be staged once the U.S. entered the fray. The U.S. alerted the Iranians their three underground facilities were going to be obliterated. The Iranians then warned the U.S. about their token retaliatory attack on our Qatar air base. And then an arranged cease fire the next day. When do enemies warn each other about coming attacks, inflict no casualties, and already have a cease fire pre-arranged? When it is nothing but a show.

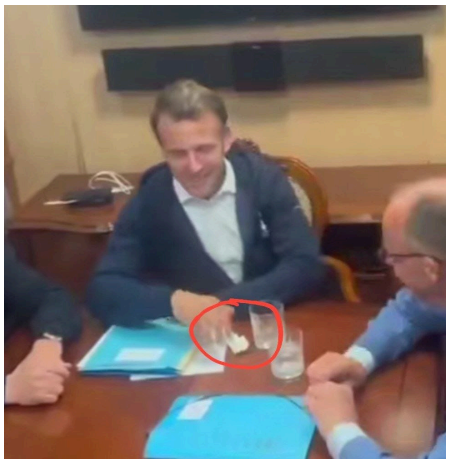
A cease fire is not the end of hostilities. Israel is rearming with the help of their good buddy Trump and his military industrial complex cronies. Iran is rearming with the help of Russia, China and North Korea. The lull in hostilities will be broken by Israel, as they continue their Gaza genocide, with nary a peep from their bought off swamp creatures in DC and have turned their sites on obliterating Syria as part of their Greater Israel master plan.

Netanyahu will stop at nothing to instigate a **WW3** scenario with Iran, creating the conditions which would "force" Trump to engage our military, compelling Russia, China, Turkey and the rest of the Middle East to become involved. The masses have been lulled back to sleep with the Epstein and Obama narratives being flogged by our overlords, but a Middle East and possibly global conflagration is only a few missteps or miscalculations away.

We are now in the 17th year of this Fourth Turning, with a likely climax before 2032. Based on a very limited sample of three previous Crisis periods in American history, we would expect a major war or wars, with unthinkable destruction and death. With the technological "advancements" in warfare this destruction and death could be unleashed in an instant. But no one seems worried or concerned with this outcome, as

the EU, with the military backing of the U.S., continues to provoke Putin into responding in a way that will ignite **WW3**.

The rationale for this insane strategy is to distract their enraged citizens from the fact they have encouraged a Muslim invasion which has destroyed the social fabric of their nations and destroyed the financial health of their states. As always, when politicians have created domestic chaos by their reckless blunders, they seek a foreign bogeyman as a dire threat in order to rally the people to their side.



[Coke Heads]

The three stooges: Macron, Merz and Starmer, with the orchestrator of lies and propaganda – Ursula von der Leyen – continue to financially and militarily support the corrupt Ukrainian cokehead even after the war has already been won by Putin's armies the old-fashioned way, by destroying the enemy's armies, industrial capacity, logistical hubs, and energy infrastructure. Of course, the peacemaker, Trump, who was going to

end the Ukraine war in 24 hours, tells the American public he is no longer arming the midget dictator/actor, while selling the arms to the EU so they can give them to the Ukrainian “hero”. The grift runs deep, with the U.S. military industrial complex reaping riches, which are dispensed to corrupt congress critters, and foreign leaders. Zelensky and his totalitarian regime skim billions from the “aid” they receive, as they bleed their nation dry in a fruitless effort to stop Putin at the behest of their overlords.

Very few people can comprehend the potential loss of life in the coming Fourth Turning wars. Since they only happen every 80 years or so, those who experienced the death and destruction have passed into the great beyond. About 5% of the entire adult white male population were killed, with another 4% wounded, during the American Civil War. An equivalent loss today would be 5 million dead and 4 million wounded. Approximately 75 million people died, with tens of millions wounded during

WW2. This death toll was about 3.2% of the global population. An equivalent death toll today would be 250 million.

This level of death is incomprehensible to the indoctrinated ignorant masses, staring at their igadgets, rooting for their sports teams, going further into debt buying shit they don't need with money they don't have, eating toxic manufactured corporate foodstuff, and oblivious to history. Technology exists to create and exceed the level of casualties described, and this technology is in the hands of unhinged psychopaths ruling our nations.

Even though Fourth Turnings follow a general pattern of an initial trigger, one or more regeneracies, conflict, and climax, the aspects and specifics will always be different, due to technological advancements, cultural changes, financial dynamics, and the particular traits of the leaders making the crucial decisions during the Crisis. The progression of technology since the American Revolution has increased the ability to kill vast numbers of human beings efficiently and quickly. The level of firepower has probably increased by a factor of one hundred or more as we progressed from the

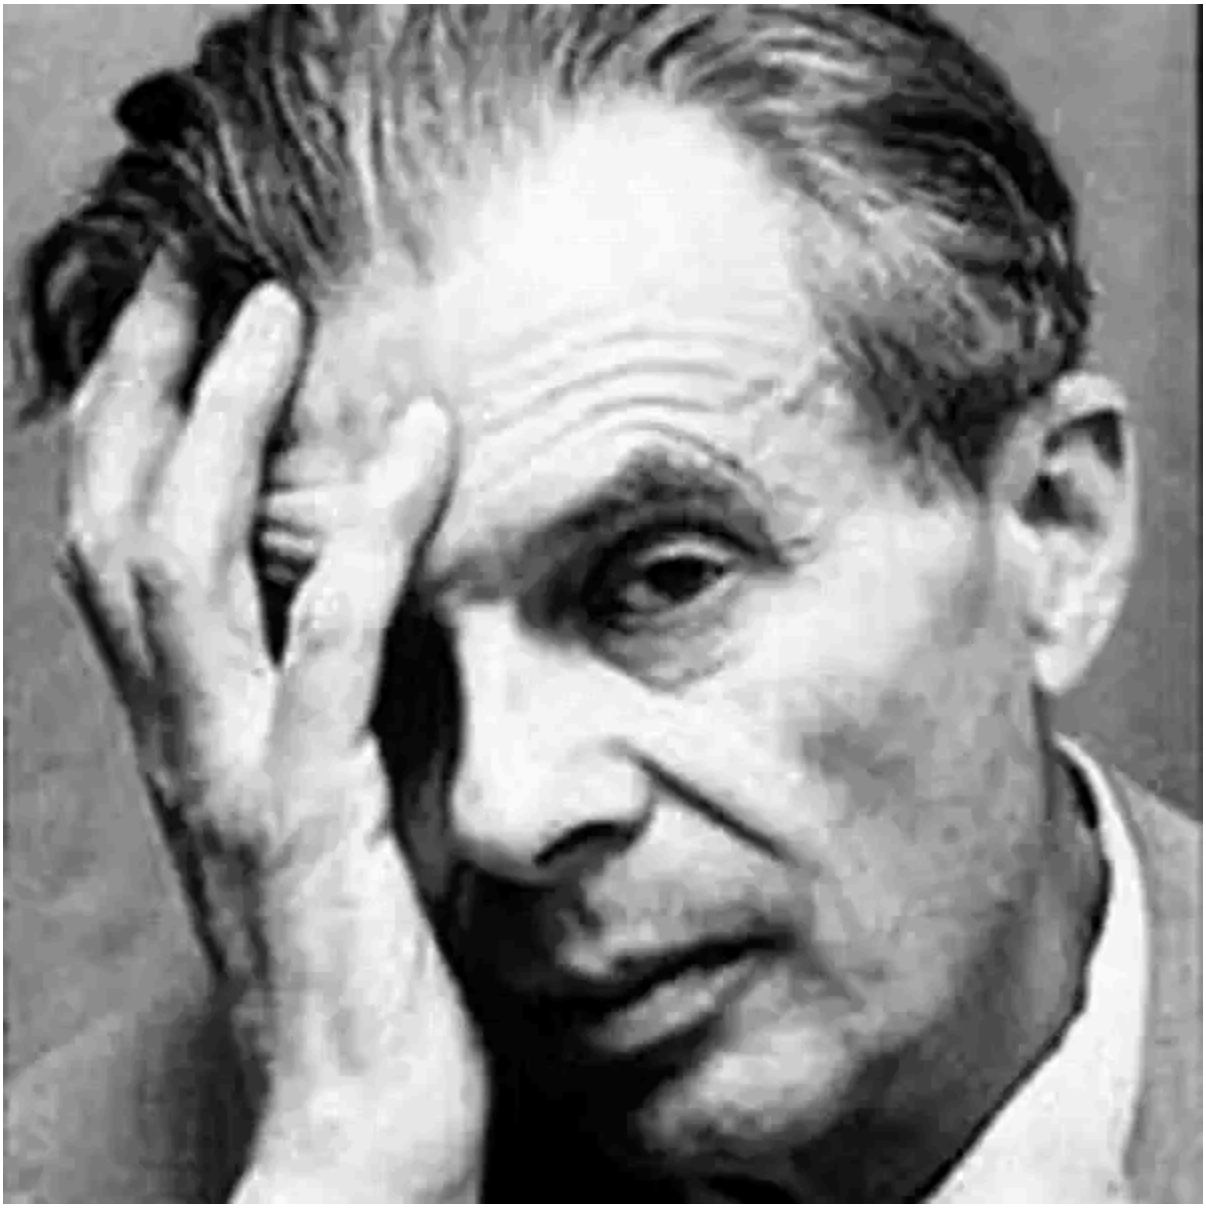
American Revolution Fourth Turning to the Civil War **Fourth Turning** to the Word War II **Fourth Turning** to the yet to be named **Fourth Turning** we are living through today.

Technology has also drastically increased the ability to communicate and coordinate forces during conflict. During the American Revolution and Civil War, armies often stumbled upon each other by accident. Lee's battle plan was accidentally left on the ground by one of his messengers, letting McClellan prepare for his attack at **Antietam**. **Stonewall Jackson** was killed by his own men, because visual scouting was the only reliable method to determine your enemy's position. World War II saw a huge advancement in communication technology, but glitches often resulted in mass casualties.

The British breaking the German communication codes and the Americans breaking the Japanese codes were crucial in winning that war. The Americans were able to shoot down Yamamoto's plane because they broke the code. These enhancements also created the opportunity for misinformation. By creating a fake army under **Patton** and leaking that information to the Germans, they were able to convince them the **D-Day** landings would be at Calais, rather than Normandy.

We are currently experiencing warfare on multiple fronts, through multiple means, with technology the key factor in conducting this warfare. This technological “progress” has been neither beneficial nor positive for humanity. In fact, it has drastically dehumanized our world and with the onset of AI, could lead to humanity’s demise. Huxley’s prescient warnings from over seven decades ago have come to fruition.

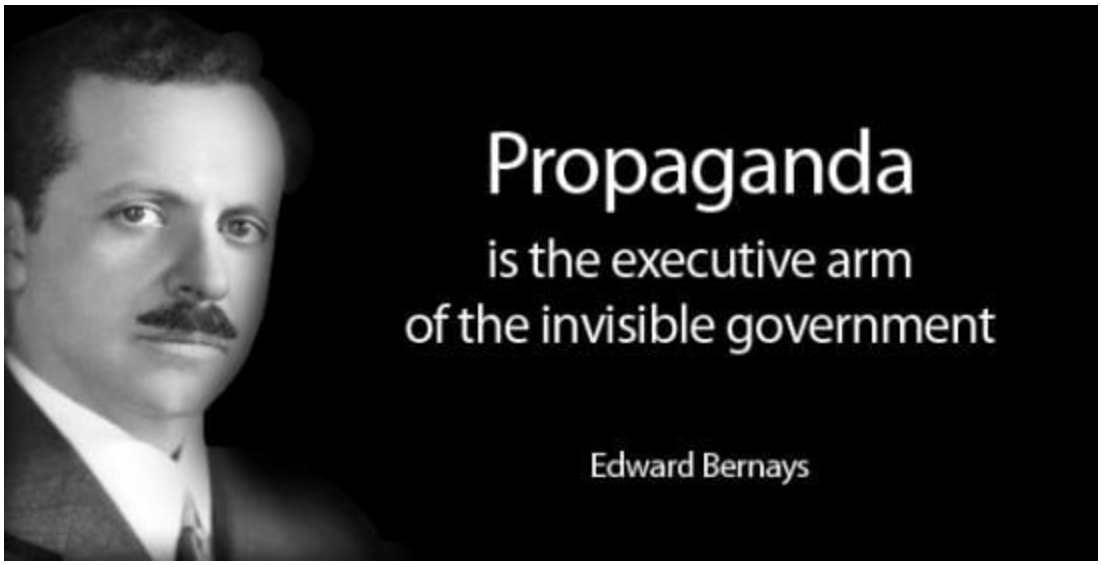
> *“Advances in technology do not abolish the institution of war; they merely modify its manifestations.”* – **Aldous Huxley**



> *"Technological progress has merely provided us with more efficient means for going backwards."* – **Aldous Huxley**

I've been speculating whether the advancements in technology could possibly alleviate the level of death and destruction in the looming conflicts. But I believe that is a forlorn hope. War is being waged against the American people and most of the citizens in this world on a daily basis and multiple fronts that did not exist during the previous Fourth Turning. Propaganda did exist prior to the last **Fourth Turning**, as described by Edward Bernays just before the onset of the Depression/WWII Fourth Turning in his 1928 book – **Propaganda:**

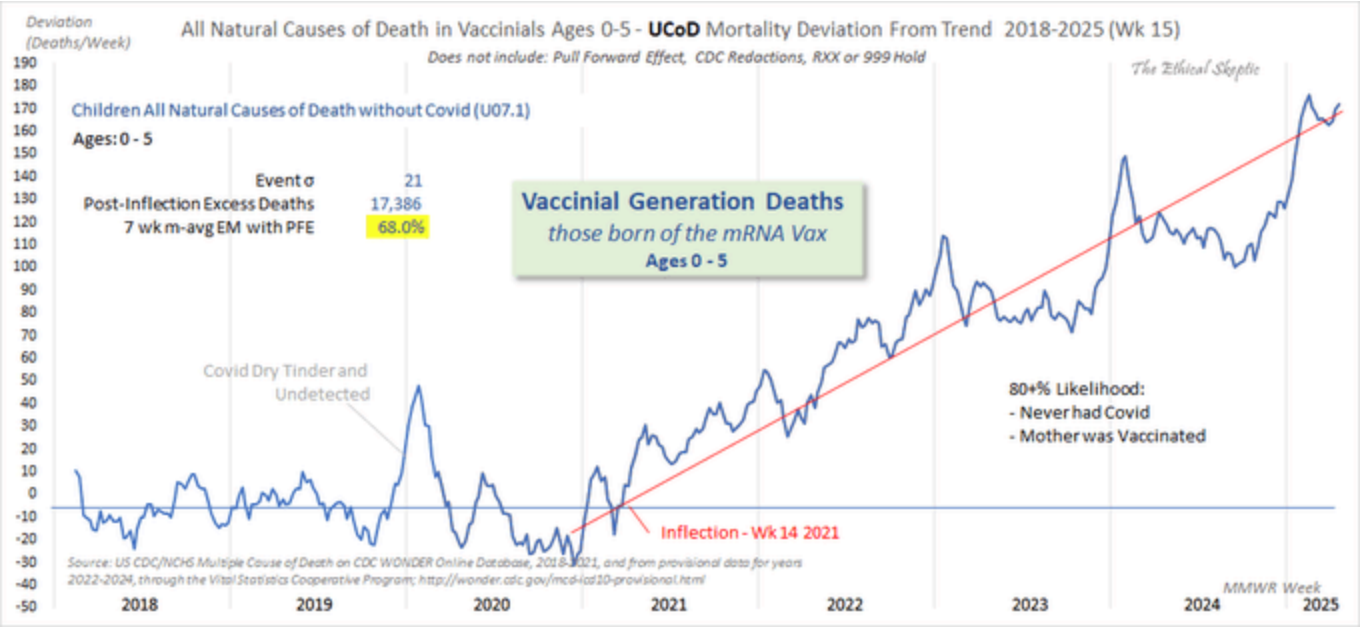
> *"The conscious and intelligent manipulation of the organized habits and opinions of the masses is an important element in democratic society. Those who manipulate this unseen mechanism of society constitute an invisible government which is the true ruling power of our country. We are governed, our minds are molded, our tastes formed, our ideas suggested, largely by men we have never heard of. This is a logical result of the way in which our democratic society is organized. Vast numbers of human beings must cooperate in this manner if they are to live together as a smoothly functioning society. In almost every act of our daily lives, whether in the sphere of politics or business, in our social conduct or our ethical thinking, we are dominated by the relatively small number of persons who understand the mental processes and social patterns of the masses. It is they who pull the wires which control the public mind."*



Essentially, he described an early version of the Deep State, as men in the shadows behind the curtain manipulating the masses using whatever means to achieve the ends desired by themselves and their cohorts. This was done inefficiently and haphazardly one hundred years ago using newspapers and radio. But the inception of television, the internet, social media and artificial intelligence laid the groundwork for the perfect **Orwellian** surveillance and propaganda network, spanning the globe.

The same exact message created by those “invisible government” controllers is delivered on multiple platforms simultaneously to overwhelm the senses and make the masses believe rather than think critically. These technologically powerful propaganda techniques have proven to be incredibly fruitful in manipulating the masses into obeying and following orders.

The covid scam brought to fruition decades of propaganda enhancements and government school indoctrination, convincing billions the annual flu was a lethal pandemic and the only way to survive was to be injected with a toxic experimental **Big Pharma** enriching gene altering concoction, which did not keep you from getting the flu, spreading the flu, or dying from the flu. But it did kill many instantaneously, continues to cause myocarditis and infertility in young people, has driven the mortality and disability rates for young people higher, and has spiked the number of turbo cancers.



The covid mRNA jab is a depopulation war against humanity being waged by **Gates**, Soros, and the other globalist psychopaths who constitute a major faction of the invisible government that really calls the shots. They have realized psychological manipulation/warfare against the masses is effortless, efficient, deniable, obscure, and extremely effective in manipulating their opinions without the use of force. This "soft" totalitarian state, enslaving the masses with debt, delusions and debauchery, has successfully navigated our world for decades. Again, Huxley nailed it when describing how the masses would come to love their servitude.

> *"A really efficient totalitarian state would be one in which the all-powerful executive of political bosses and their army of managers control a population of slaves who do not have to be coerced, because they love their servitude."* – **Aldous Huxley**

The war for our souls has been waged in the government-controlled K-12 social indoctrination centers disguised as schools. They teach obedience, feelings over thinking, dependency on their government overlords, and to never question authority. Any child who doesn't adhere to their doctrines is immediately diagnosed with ADHD and heavily drugged. Female teachers stop at nothing to feminize boys, making them act like girls.

These indoctrinated drones then move onto universities completely controlled by left wing professors and administrators who further indoctrinate them with socialist and communist doctrines. They have won the war for our youth by having matriculated millions of non-thinking, non-questioning, outright morons, who are addicted to their phones, fast food, and porn, into society. The degradation of our moral character as a nation is directly attributable to this war on our youth.

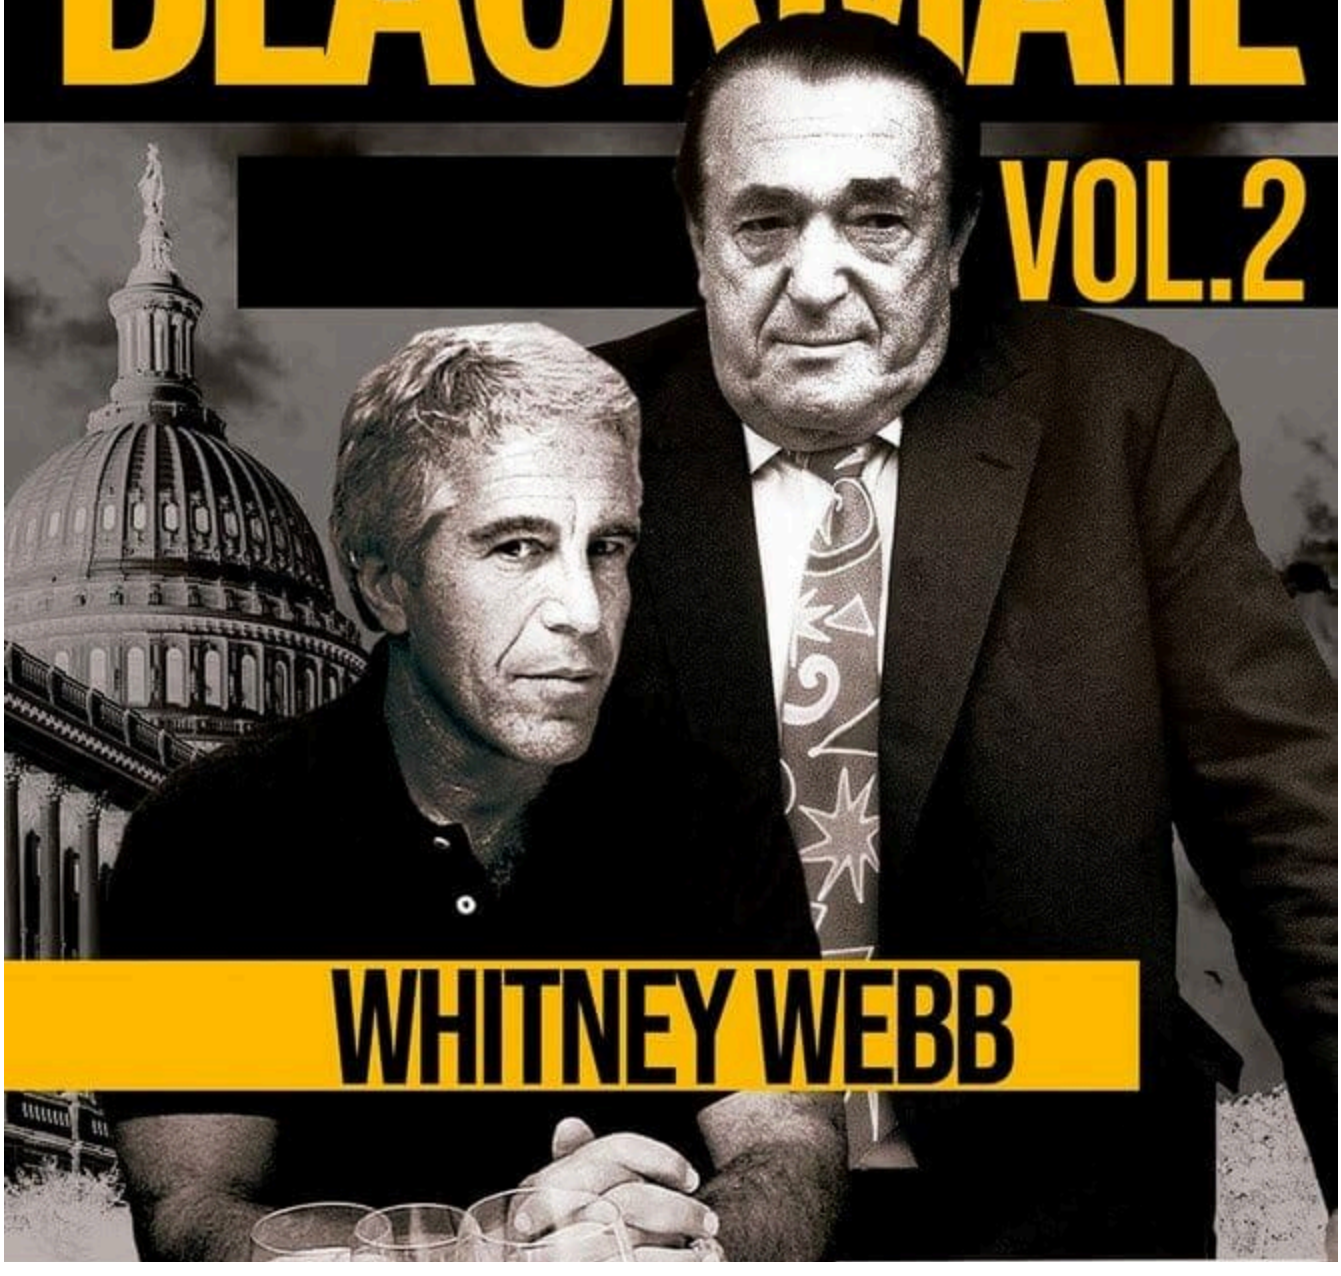
The **Epstein Mossad pedophile/blackmail coverup** and the unearthing of documents proving an Obama/Clinton treasonous plot to undermine a duly elected president is essentially a war within the Deep State/Invisible Government for control of who dictates how we are going to be controlled. None of this is for the good of the American people. The ruling elite will always protect themselves. Justice and the law are meaningless to them.

The Constitution is an outdated piece of paper in their warped view. We are worthless peasants to them. They will go to war and use us as cannon fodder to keep their treasure chests filled. There will be hearings, accusations, ten thousand articles written, hundreds of Fox News interviews, and conservative influencers will make millions flogging these stories, but no one of substance will be perp walked or spend one minute in prison. It's a big club, and we ain't in it.

The sordid union between Intelligence and Organized Crime that gave rise to Jeffrey Epstein

ONE NATION UNDER BLACKMAIL

VOL.2



WHITNEY WEBB

The anger, vitriol and animosity oozing from the pores of every critical thinking American, Russian, Chinese, and Western European, who can clearly decipher the globalist agenda of creating a new world order, with **CBDC**s, social credit scores, 15 minute cities, eating meatless meat and bugs, trapped in a 24 hour electronic surveillance gulag, and artificial intelligence weaponized to control us all, will come to a boil once a particular event triggers the chaotic unwind. Keeping the masses distracted and amused by their electronic gadgets, in debt up to their eyeballs, and running faster and faster on their hamster wheels to make a buck that loses value every single day, works as long as the economy and financial markets provide the appearance of stability and growth.

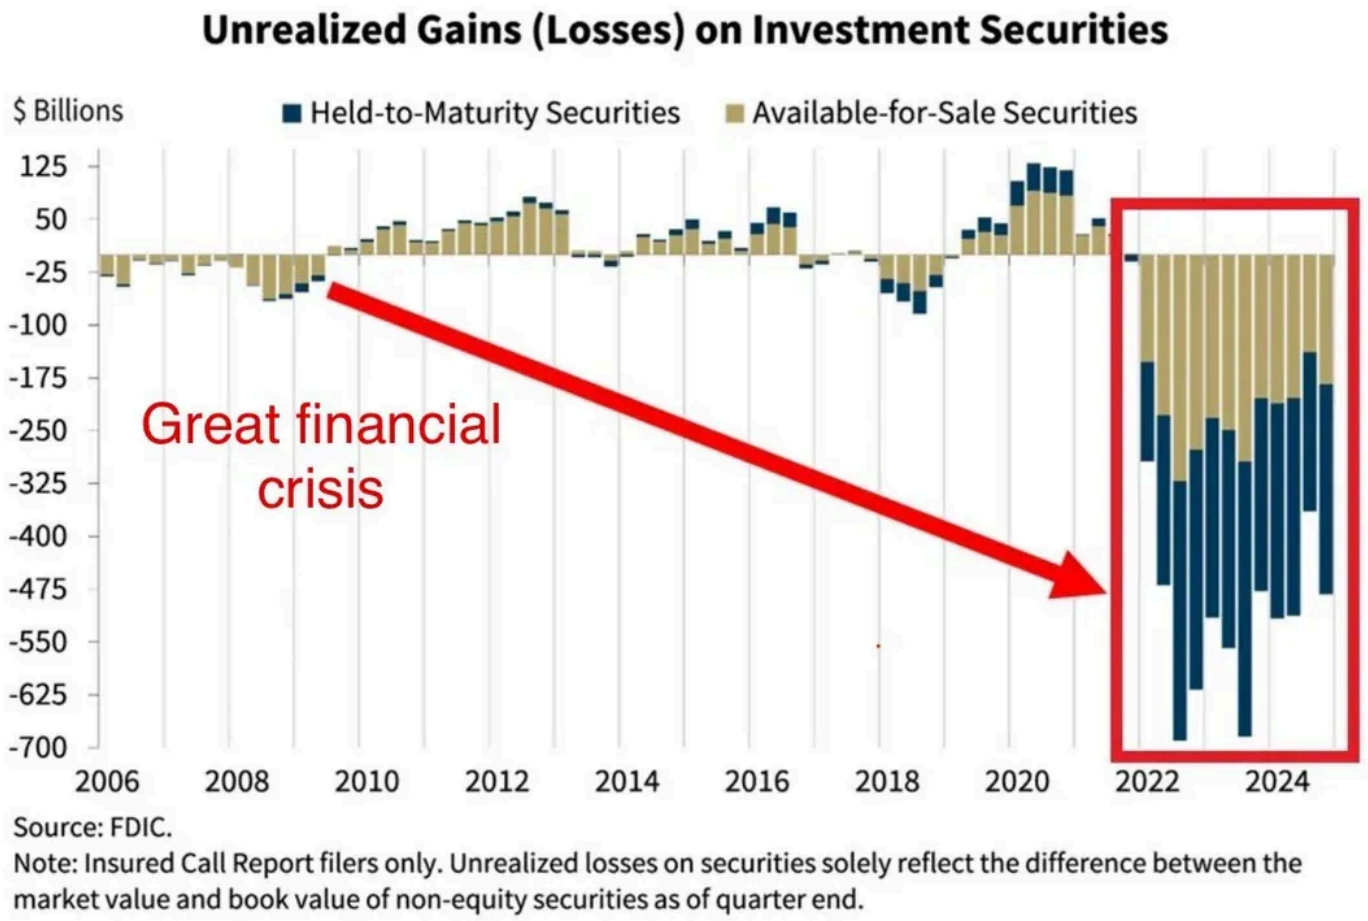
Our glorious leaders had to pass the “big beautiful bill” adding another $3 trillion of debt to the $21 trillion already projected over the next ten years, bringing our future national debt to a nice round $60 trillion by 2035. Their solution to our debt problem is to add an infinite amount of more debt. They believe they can pull off this insane scam because they believe the USD will retain its reserve status forever. But Russia, China and the rest of the BRIC countries may add a dose of reality to that American dream scenario. And that is the main reason for the animosity towards Russia and China exhibited by the neo-cons and Deep Staters who know their American empire is in peril.

U.S. Housing Market has reached its most unaffordable level in history 🚨 🚨

In my opinion, the most likely trigger for the more violent phase of this Fourth Turning would be a financial crisis causing a global financial meltdown. With the stock market at all-time highs, bitcoin at all-time highs, low unemployment, positive GDP, and Trump declaring America is great again, there is virtually no “expert” predicting a financial crisis, just like 2007/2008. What the “expert” stock market shills fail to acknowledge is a housing bubble 15% greater than the epic 2006 bubble, leaving home prices 90% above the long-term median. The last bubble burst in 2008/2009 did a bit of financial damage. But this time the commercial real estate market is even far worse than the residential market. Extend and pretend doesn’t work forever. This Jenga tower of debt is teetering.

Both the Fed and their Wall Street owner banks have massive levels of unrealized losses due to purchasing Treasuries and mortgage-backed securities when interest

rates were close to zero (courtesy of the Fed). The banks currently have $450 billion of unrealized losses, while the Federal Reserve has over $900 billion. If these losses were realized, our entire banking system would be destroyed. They all seem to be in a bit of a pickle, but no one in the MSM, DC, or financial industry says a word. They use the Sergeant Shultz mantra – "I see nothing!!!". The reality is we are in an extremely risky situation.



Stock market valuations, based on historic measures, have only been higher during the dot.com bubble, and are currently 30% higher than the long-term averages. The shysters, who make their money fleecing the average schmuck, have convinced millions to invest at these all-time highs with narratives about a new paradigm created by AI and crypto-currencies. This time is always different.

It's almost as if the overlords pulling the strings are expanding this everything bubble to mammoth proportions before "pulling it" and creating the crisis they need in order to save the day by implementing their "**Great Taking**" of your 401k, IRA, mutual funds, and bank accounts, while offering CBDCs as compensation for absconding with your life savings. They would get the added benefit of pinning the catastrophe on Trump. Based on the almost absolute compliance by the masses during the covid scam, our ruling elite controllers are confident they could pull this off. If not, civil war would be the alternate outcome.

There is a myriad of other more ambiguous potential triggers which could light the fuse on this powder keg, disguised as civilized society. There are quite a few lunatics running countries with the ability to launch a nuclear missile. One miscalculation, with additional dominos falling, and the world turns into an ashtray. Earthquake and volcanic activity seem to be increasing. A volcanic winter caused by a massive eruption would cause global havoc and starvation. A massive grid failure due to a solar event, EMP, or just plain incompetence would cause pandemonium. NATO pushing Russia too far, with missiles launched at Germany, triggering treaty obligations as in 1914, with dire consequences for the globe. The assassination of Putin and ascension of Medvedev to

president/dictator would surely ignite WW3. China invading Taiwan would certainly get the fireworks going.

The truth is no one knows what will initiate the next bloody phase, but you can't deny the volatile concoction simmering, as societal collapse awaits. I know I sound like a broken record, but Strauss & Howe conjured up four potential outcomes to this Fourth Turning, and I think their educated guesses are on target and deeply concerning. The long road ahead will be stormy and dangerous. Hopefully we come out whole on the other side with a renewed appreciation for our Constitution and Bill of Rights. Currently, the odds for that outcome seem long.

Strauss & Howe provide four possible outcomes to our current Crisis:

1. *This Fourth Turning could mark the end of man. It could be an omnicidal Armageddon, destroying everything, leaving nothing. If mankind ever extinguishes itself, this will probably happen when its dominant civilization triggers a Fourth Turning that ends horribly. For this Fourth Turning to put an end to all this would require an extremely unlikely blend of social disaster, human malevolence, technological perfection and bad luck.*
2. *The Fourth Turning could mark the end of modernity. The Western saecular rythm – which began in the mid-fifteenth century with the Renaissance – could come to an abrupt terminus. The seventh modern saeculum would be the last. This too could come from total war, terrible but not final. There could be a complete collapse of science, culture, politics, and society. Such a dire result would probably happen only when a dominant nation (like today's America) lets a Fourth Turning ekpyrosis engulf the planet. But this outcome is well within the reach of foreseeable technology and malevolence.*
3. *The Fourth Turning could spare modernity but mark the end of our nation. It could close the book on the political constitution, popular culture, and moral standing that the word **America** has come to signify. The nation has endured for three saecula;*

Rome lasted twelve, the Soviet Union only one. Fourth Turnings are critical thresholds for national survival. Each of the last three American Crises produced moments of extreme danger: In the Revolution, the very birth of the republic hung by a thread in more than one battle. In the Civil War, the union barely survived a four-year slaughter that in its own time was regarded as the most lethal war in history. In World War II, the nation destroyed an enemy of democracy that for a time was winning; had the enemy won, America might have itself been destroyed. In all likelihood, the next Crisis will present the nation with a threat and a consequence on a similar scale.

4. *Or the Fourth Turning could simply mark the end of the Millennial Saeculum. Mankind, modernity, and America would all persevere. Afterward, there would be a new mood, a new High, and a new saeculum. America would be reborn. But, reborn, it would not be the same.*
